

SCHOOL ZONE WARNING SYSTEM

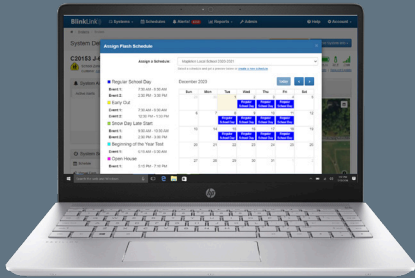

School zone speed limit warning alerts attract added attention to posted school zone speed limit signs. Upon activation, BlinkerSign® or BlinkerBeacon™ LEDs command driver's attention during the day and can dim at night to reduce glare.

- Programmed to flash during scheduled times via Time Clock
- Remote Time Clock and activation scheduling available through cloud based BlinkLink®
- Combine with BlinkerRadar™ to reduce drivers speeds by as much as 9MPH
- AC and Solar power options available so systems can be placed in any location

ENHANCEMENTS

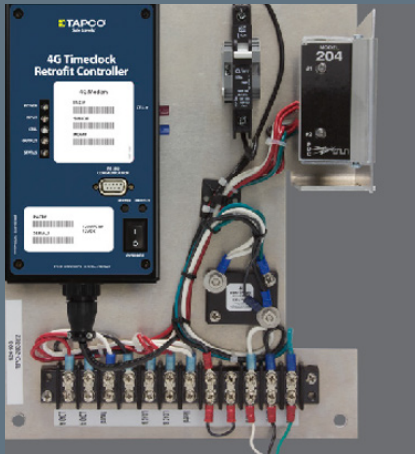

BLINKLINK®

BLINKERRADAR™

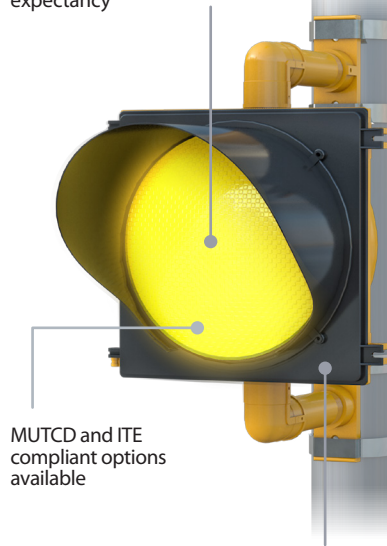

4G TIME CLOCK RETROFIT

*Upgrade an outdated TAPCO system or a non-TAPCO system with the BlinkLink enabled 4G Time Clock Retrofit Kit
