

RECERTIFICATION AND MAINTENANCE AGREEMENTS

Recertification and Maintenance Agreements are an ideal addition to your operational plan or safety program.

They enable you to effortlessly supplement your technical resources and protect your equipment investments with expert service, delivering longer equipment lifespans and optimal performance.

STANDARD SERVICE AGREEMENTS INCLUDE:

- Scheduled (annual, biannual, etc.) visits to perform preventative maintenance, including:
 - Mechanical inspection and validation
 - Electrical inspection and validation
 - Detection/activation inspection and validation
 - Full system testing
- Complete documentation, including photos and notes, provided after every service call

KEY BENEFITS

- “No questions asked” warranty extensions.
Common warranty parts included:
 - Batteries
 - Radio
 - Solar panels
 - Controller
 - LED-enhanced signs or beacons
- Technicians with parts on hand to ensure systems are fully functional and performing at optimal levels
- Performance of calibrations, repairs, firmware updates and other system regulatory updates as needed
- Discounted BlinkLink® subscription
- Maintenance contractor technical support
- Discounted equipment packages also available
- Standard contract terms of three years (alternate contract terms available upon request)

Emergency response services are available upon request in certain areas
